Philemon	36	The book of Philemon is a masterpiece of apostolic conflict resolution. The lesson examines how Paul handled a major interpersonal church conflict involving legal ramifications and literal life and death issues. This brief letter stands as a model for peace making and conflict resolution within a local assembly without resorting to "authority" structures and "pulling rank."	CD, MP3	15
Healing: The Children's Bread	37	An 8 part series covering topics such as cultural issues related to healing; Semitic worldview regarding disease and sickness; first century health and life expectancy; hindrances to receiving healing; psychology of the healing gifts, the role of corporate relationships clinical and scientific data regarding how the immaterial soul affects the material body; why healing is not widely manifest in our churches, and much more.	CD, MP3	40
Righteousness: How God Floats Your Boat	38	A five part series of Gospel basics. Many Christians live in a strange mixture of works righteousness and faith. Much discipleship teaching fosters a belief system that our acceptance, advancement or favor with God is based on our behavior. This series explains righteousness simply, but deeply, from an analogy of God "right-wising" a capsized boat.	CD, MP3	25
The Kind of Unity We do Not Need	39	This message presents ten different models of false unity that pastors and and church leaders are often pressured to embrace under the guise of getting along and pursuing unity. True and false foundations of unity are presented	CD, MP3	5

The Context of Intimacy	40	What are we doing and why are we doing it? A reexamination of concepts concerning prayer and worship, the "presence of the Lord" and more from a New Covenant perspective. Our intimacy with the Lord should produce fruit: converts, not just our enjoyment of His Person and manifest presence	CD, MP3	5
New Covenant Foundations Part I	41	Seminary level instruction on New Covenant foundations: Hebrews 8 - the New Covenant is "not according to" the Old. What are the implications of this? Understanding Semitic Culture 1	44	An examination of the cultural context of the Gospels, using the Gospel of John as a case study, how understanding cultural differences is vital in interpreting Scripture; honor-shame, in group-out-group, kinship, embedding love-hate, ethics and more.	CD, MP3

The Marketplace Christian	47	Ten hours of practical instruction for the business person/entrepreneur: how to survive and thrive in both the "church universe" and the "marketplace universe; this is not a "how to make money" series, but rather how to "function" as an integrated human being in both universes.	CD, MP3	50*
Charisma and Community	48	A three part series examining charismatic gift issues. Is it possible to be charismatic without being manic or crazy? Special emphasis is given to the relationship to the faith community. Identity instead of "stimulus" as the correct source of charismatic	CD, MP3	15

	manifestation; what hinders or binds up the believer from the confident exercise of the gifts of the Spirit			
Foundations for Grace	49	The psychological, historical, and theological context for grace. How guilt, when defined and understood properly is the friend of grace. Grace only makes sense when God's holiness and righteousness is understood. If God is so loving, why doesn't he just forgive us? Why was Calvary (the Cross) necessary? How should believers "process" feelings of "guilt"? The story of Cain and Abel is presented from a non traditional point of view to demonstrate God's pursuing grace.	CD, MP3 QT DVD (3)	45* 50 65*
A Better Way to Pray - part 1	50	The examination of prayer and intercession from a New Covenant, "Finished-Work," perspective: a) what we are doing, b) why we are doing it, and c) what do we think we are accomplishing by our ministry of prayer. How "effective" is our prayer? What influences effectiveness? Special attention will be given to the Lord's parables generally interpreted as the parables of "importunity." Introduction to the topic of intercession will be covered. Part 2 will delve more deeply into the "philosophy" of prayer and issues of "spiritual warfare," "prophetic intercession," etc.	CD, MP3 QT DVD (3)	45* 50* 65*
Toward an Apostolic Church	51	Being "apostolic" has nothing to do with a certain ministry or office, but rather an inward value system and configuration through which one both sees and implements the kingdom of God. In this series the churches in Jerusalem, Antioch, and Ephesus are examined for their differences, strengths, and weaknesses, as they relate to a core set of "building values" that are dominantly apostolic instead of dominantly pastoral. This series is highly recommended for those with church planting interests.	CD, MP3 QT DVD	45* 50* 65*
The Art of Peacemaking	52	The value of relationship is something believers talk about, but few are willing to make the sacrifices necessary for it to really occur. In spite of the supposed cutting edge revelations in our midst, we do a very poor job of getting along. Our marriages collapse and our churches fracture. If the Church has been given a message of reconciliation, why do we do such a poor job of getting along with one another, not in an artificial ecumenical way, but in an intimate, local church atmosphere? In this three hour series, Dr. Crosby presents: The definition of an expectations for peace making and relationship building - Hindrances to relationship building - Tips for relationship building with Christ as the center - A fresh perspective on Matthew 18 as it relates to community peace.	CD, MP3 QT DVD (3)	45* 50* 65*
Apostolic vs. Pastoral	53	This passage is frequently taught and applied incorrectly with calamitous results.	CD, MP3	15

Identity, Calling, and Function	54	<p>This CD discusses some of the differences in mindsets, methods, and value systems between building a church with a dominant pastoral emphasis versus building with an apostolic framework of understanding.</p> <p>Before Jesus entered any public ministry, he had his identity and calling publicly affirmed. Effective ministry results from understanding one's identity and calling, not from charisma and anointing. Great personal and corporate pain can occur in local churches when we teach and release people to "serve with their gift" before they "know who they are" at a deep spiritual and psychological level. Identity healing and reconfiguration should precede functional ministry of any type.</p>	CD, MP3	15
A Better Way to Pray - Part 2	55	<p>In this lesson we address issues such as:</p> <ol style="list-style-type: none"> 1. The sovereignty of God 2. The nature of intercession: stereotypes and misunderstandings 3. 2Chr. 7:14. According to much intercessory and revival preaching 4. Misunderstandings, misapplications, and downright Gnostic superstitions regarding "spiritual warfare" 	CD, MP3 QT DVD	60 65* 80*
Pentecost & the Indwelling - Part 1	56	<p>We examine the cosmic and practical implications of the "full Gospel" defined as:</p> <ol style="list-style-type: none"> 1. Christ's incarnation, death, burial, resurrection, ascension, glorification, Spirit outpouring, & Spirit indwelling. 2. What are the implications of humanity sharing in the Spirit of God? 3. What are the implications of being "regenerated" or a "qualitatively new" creation? Why did God bother doing it this way? <p>What is His eternal intention? How did/does Pentecost affect Biblical interpretation?</p>	CD, MP3 QT DVD	15 65* 80*
